## TECHNICAL SKILLS

---

- Languages: Python, C, JavaScript, SQL
- Frontend: HTML, CSS
- Tools: Git, GitHub, VS Code
- Skills: API, DOM Manipulation, Responsive Design

## PROJECTS

---

### Weather Dashboard | (HTML, CSS, JavaScript)

Live Demo | GitHub: <https://adirxynn.github.io/Weather-App/>

- Built a responsive weather dashboard integrating OpenWeatherMap API for real-time weather information
- Implemented asynchronous API requests and dynamic UI rendering based on user search input
- Displayed weather metrics including temperature, humidity, wind speed, and location-specific conditions
- Added responsive design and error handling to improve usability across devices

### TaskFlow (To-Do Application)

Live Demo | GitHub: <https://adirxynn.github.io/Taskflow/>

- Developed a browser-based task management application with task creation, editing, completion tracking, and deletion functionality
- Implemented dynamic DOM manipulation and event-driven architecture using vanilla JavaScript
- Integrated Local Storage for persistent client-side data management across sessions
- Designed a responsive user interface optimized for desktop and mobile devices

### PSB UnIC – Hackathon Project (Round 2 Selected)

- Part of a 5-member team selected for Round 2 of a national-level fintech hackathon focused on banking fraud prevention
- Conducted research on UPI fraud patterns, device spoofing, and behavioral authentication risks
- Contributed to identifying security gaps in post-transaction fraud detection systems
- Participating in system design discussions for pre-transaction fraud detection and device-based authentication

## EDUCATION

---

### Amity University, Noida

2029

- Bachelor of Technology (B.Tech) in Computer Science
- CGPA: 7.67

### Convent of Jesus and Mary, Delhi

2025

- Class X: 94%
- Class XII: 75%

## ADDITIONAL INFORMATION

---

- Actively learning full-stack web development and React.js
- Built and deployed 2 web applications using JavaScript
- Currently learning fundamentals of Artificial Intelligence and Machine Learning
- Solving Data Structures and Algorithms problems to strengthen problem-solving skills
